Experience

QA LEAD & UI/UX DESIGNER / ENGINEER OOPS! ALL PROGRAMMERS, (STUDENT PROJECT).

Sep 2025 - Present

Served as QA Lead responsible for build verification, bug tracking, and QA documentation for a team with over 15 plus people. Designed and implemented UI/UX prototypes for menus and gameplay HUD in Unreal Engine while collaborating with cross-discipline team to create the best game possible while maintaining build stability.

GAMEPLAY PROGRAMMER / DESIGNER - 23 BROWN RECLUSES IN A BOOT, (STUDENT PROJECT).

Sep 2024 - Aug 2025

Worked on a team to design and development of a custom game engine with debugging tools and created a technical demo in the engine. Designed and implemented gameplay systems for a Vampire Survivors like game by developing weapons, enemy archetypes, progression systems, item drops, and gameplay HUD. While creating the gameplay I was also in charge of gameplay balancing which I did through iterative playtesting.

CASHIER - REGAL CINEMAS

May 2023 - Present

Demonstrated reliability and time management while working flexible schedules. Developed strong communication skills and a successful balance between academic responsibilities and with work.
